ARTS, CULTURE & TRAVEL

The Silver Thread - A Colorado Scenic Byway

Take a trip down the an amazing highway, Colorado Route 149. Starting at 8000 feet, you will soar to almost 11,000 feet traveling over two passes and the Continental Divide. Learn about the geology that created some of the largest calderas in the West. Tales of wildlife, mining and a real American cannibal. For almost 50 years we have been returning to this area of the San Juans' in the Rockies. Let us share this area with you. And while we do lots of jeeping, this trip can be done in a passenger car.

Location: Secrest Wible **Code:** F21FSFACT034A

The 1960's Folk Music Revival in Four Acts

The history of this revival is illustrated by using four musical acts to explain aspects of what Dave Van Ronk called "The Great Folk Scare". The Kingston Trio and others: making folk music safe; Dave Van Ronk and Joan Baez: the revenge of the "pure" folk singers; Bob Dylan: the rise of the singer/songwriters; and artist(s) to be named later: the folk revival evolves. This class will feature discussion, videos, and songs for all those who also love the music of this era or want to know more.

Date(s): 9/13/2021 - 10/4/2021 **Time:** 1:00PM - 2:30PM **Day:** M **Sessions:** 4

Remembering the Great Albums of the '60s

Popular music moved from albums to 45s, back to albums in the '60s. This class will explore eight of the albums that changed how we listened to music. We will listen to all or most of these albums all the way through because that is how we listened to them when we first brought them home from the record store. Then we will talk about what made them so significant -- and so meaningful to us. There should be a lot of opinions on the album choices!

Date(s): 9/14/2021 - 10/5/2021 **Time:** 9:00AM - 10:30AM **Day:** Tu **Sessions:** 4

TCU's Ken Holder: An Artistic Journey from the Palo Duro Canyon to the Lewis & Clark Trail and Beyond

Ken Holder, a 1959 TCU graduate, was a professional artist and professor with a prolific output. We have 37 of his works in our home, and I will gladly take you on a tour of his artistic journey from Elementary school in Amarillo to retirement as a professor at Illinois State University. Work has been displayed in galleries in Houston, Dallas, Chicago, in museums, the Illinois state capitol and even in Senator Obama's Washington office.

Date(s): 9/16/2021 - 9/16/2021 **Time:** 1:00PM - 2:30PM **Day:** Th **Sessions:** 1

Autumn Adventure Travel Log: Foliage, Falls, Mountains and Mansions

Would you like to take a new driving adventure this Autumn? This lecture presents a possible itinerary you may never have considered. This flexible ten-to-fourteen day route takes us the same distance as Colorado, but east from Fort Worth instead of west. We will explore the colorful fall foliage of the scenic Smoky Mountains and the Blue Ridge Parkway, with stops at iconic mansions and incredible waterfalls. Along the way you may choose to visit a blues club, pick your own peck of apples, do a wine tasting (or two), visit log cabins and churches built in the 1820's, or conquer the infamous "Tail of the Dragon"!

Date(s): 9/29/2021 - 9/29/2021 **Time:** 9:00AM - 10:30AM **Day:** W **Sessions:** 1

Location: Secrest Wible **Code:** F21FSFACT032A

Winchester -- The Ancient Capital of England and Beyond

Learn the history of this ancient city located in Hampshire, England and explore the famous cathedral, Winchester College, King Arthur's Round table, and much more. We will also travel to sites within easy access of Winchester, such as Salisbury, Broadlands (home of the Mountbatten's), Romsey Abbey, Portsmouth, HMS Victory, Highclere Castle (of Downton Abbey fame), and Carisbrooke Castle, on the Isle of Wight.

Date(s): 9/30/2021 - 9/30/2021 **Time:** 11:00AM - 12:30PM **Day:** Th **Sessions:** 1

Diamond Dot Painting

Diamond Dot Painting is an easy craft that is somewhat like cross stitch but without the thread. Small "drills" (or flat beads) are placed on a adhesive mat in place of stitching to create a picture. The craft takes minimal supplies and work space. The complexity of the project all depends on the size of the mat and the number of colors. We will be making a small picture that you will be able to take home to finish.

Date(s): 10/7/2021 - 10/7/2021 **Time:** 11:00AM - 12:30PM **Day:** Th **Sessions:** 1

Location: Secrest Wible **Code:** F21FSFACT037A

Modern Art Can Be Realistic

"Modern art" can, for many people, elicit images of splatters or drips of paint. "My grandchild could do that," is a common response. "I want art to be realistic," is heard often. Today there are modern art works (created since about 1945 to the present) that are realistic. Many point to either historical events or current social issues. Some works may be considered "too realistic". In this session we will explore examples of realism in modern art and share our responses to what we have seen. There are no "correct" responses! The Boxer Rebellion: 55 Days in Peking

In the summer of 1900, increased Western encounters with an increasingly destabilized Chinese Qing Dynasty led to the rise of the anti-foreigner movement led by the "Boxers." As the insurrection spread in China, by June they had converged on Peking in a siege of the foreign legations that lasted for 55 days. A multinational relief force, including the United States, arrived by sea and fought their way to the capital to relieve the legations. The lecture will include material

on the origins of the Boxers, the Legations, the Relief Expedition (with emphasis on the use of American forces) and the aftermath of the event.

LITERATURE & WRITING

Philosophers in Fiction: Friedrich Nietzsche

Some of Western culture's best thinkers are storytellers, often giving lyrical expression to their intellectual energies, so it should come as no surprise that contemporary fiction writers have retold the lives of such strikingly imaginative philosophers. This class will discuss as well as read Irvin D. Yalom's "When Nietzsche Wept: A Novel of Obsession," which chronicles the infamous life and forceful work of Friedrich Nietzsche (1844-1900). Topics include: God's non-existence, cultural decadence, "Dionysian pessimism" and saying "Yes" to life, the "will to power," and the idea of "the Superman."

Forgiveness

Forgiveness is a complex process. In his book, L. Smedes writes: "When we forgive we come as close as any human can to the essentially divine act of creation, for we create a new beginning out of past pain and we create healing for the future by changing a past that had no potential in it for anything but sickness and death." Smedes is one among several authors whose work we explore, as well as the multilayered process of forgiveness, what forgiveness is not, some psychological and spiritual aspects, and how forgiveness has been portrayed in the arts.

Black Holes: The Weirdest Objects in the Universe?

Black holes might be the weirdest objects in the universe. The possibility that they might exist was suggested by Schwarzschild in 1916 using Einstein's theory of general relativity. Einstein commended Schwarzschild's mathematics, but he didn't believe that nature would allow such an odd object to exist. We now know that black holes are common in the universe and recent experiments have allowed them to be directly observed. This lecture will discuss their properties and how they continue to perplex physicists.

The Old Chisholm Trail: From Cow Path to Tourist Stop

Controversy over the name and route of the Chisholm Trail has persisted over time; and the popularity of late nineteenth-century Wild West shows, dime novels, and twentieth-century radio, movie, and television western drama has propelled the bygone era of the cattle trail into myth. The rise of automobile tourism, potential economic impact of tourists, and the appearance of numerous "historical" markers based on little more than hearsay contributed to the Chisholm Trail legend. Primary documents and sources that may have been unavailable to previous historians will be used to offer a new look at the Old Chisholm Trail.
